

## Postal Mail Abstract Submission Form

The best way to submit an abstract for consideration is through the On-line Abstract Submission Form on the conference Web site (<http://www.smmconference.org>). The second best way would be to provide the information requested on this form and submit it on a floppy disk in text format (.txt) or by e-mail to [sciprogram@vanaqua.org](mailto:sciprogram@vanaqua.org). At the end of the review process, notification of abstract submission status will be made by e-mail.

If neither of these methods is available, then you may submit a paper form to: Scientific Program, Conference on the Biology of Marine Mammals, Vancouver Aquarium Marine Science Centre, PO Box 3232, Vancouver, B.C., Canada V6B 3X8. The courier address is: Scientific Program, Conference on the Biology of Marine Mammals, Vancouver Aquarium Marine Science Centre, 845 Avison Way, Vancouver, B.C., Canada V6G 3E2.

Abstracts describing any data or models that add to our knowledge of marine mammals may be submitted. Research presented must be significant, previously unpublished, and new to a biennial conference. Updates of a previous paper will receive low priority.

**Please note:** An individual may be the first author on only one abstract submission. The criteria for abstract acceptance will include peer-reviewed assessments of originality, quality, importance and presentation. **Abstracts must be date-stamped, for e-mail and on-line submissions, or postmarked by midnight (12:00 a.m.) June 15, 2001 Pacific Standard Time.**
